Hi! I'm a designer, coder who passionate about solving problem. I also like co-building great working culture and mentoring young designers. I've been doing this since 2009.

Experience

2015 – 2019 **Product Design Lead,** Anduin Transactions

Joined Anduin as the 4th member, the 1st designer. Beside cracking tough problem of Venture Capital world through making mockups & crafting UI on Scalajs, I also helped setting up design system, design processes and growing the design team of 5 members.

2014 – 2015 **Product Designer,** iVIVU

I joined as the solo in-house product designer for the online hotel booking platform. Later promoted to product manager to handle all aspect of the product. In charge of the look & feel of the product.

2012 – 2014 **Product Designer,** VNG Corporation

Worked on an experiement micro-blogging platform called Zini. In charged of the look & feel of the platform from mockups to html/css-ready for developer to iterate.

2011 – 2012 **HTML/CSS Developer,** Skunkworks - Klamar

Worked closely with graphic designers to elevate the web and mobile web application version. Mainly slice design into html/css but also do design works.

2009 – 2011 **Web Designer,** Officience

Officience is an out-sourcing company, where i learn how to do ui/ux and html/css. It's the starting point in my career. When i was here, i worked on multiple projects from small to enterprise scale.
